LIFE WEST AND ACCR COOPERATE IN OCTOBER EVENTS IN THE BAY AREA

Hayward, Calif., November 13, 2008-- In October, Life Chiropractic College West enjoyed a mutually supportive relationship with the American Chiropractic College of Radiology (ACCR) as the two entities held concurrent conferences in the San Francisco Bay Area.

Life West sponsored several aspects of the ACCR's Workshop 2008 (October 16 – 18), and top speakers from the ACCR's membership spoke at Life West's Festival 2008 homecoming program (October 17 – 18).

The cooperation was made possible when the ACCR selected the Sir Francis Drake Hotel in San Francisco for its annual meeting site. James Carter, D.C., D.A.C.B.R., an ACCR member and Life West faculty in the clinical science imaging department, facilitated the arrangements between ACCR and Life West, and Life West President Dr. Gerard Clum attended several of the ACCR conference functions.

Dr. Carter stated "I think I can speak for all ACCR members in saying that we owe Dr. Clum and Life West a debt of gratitude for helping to make the 2008 ACCR workshop one of the most enjoyable and successful programs that we have had in recent memory."

The annual ACCR workshop is designed to further the knowledge base of the Diplomate in the field of diagnostic imaging.

ACCR presenters on Life West's homecoming program at its Hayward campus were Drs. Michael Barry, Benjamin Glass, John Hyland, Robert Kuhn, Jan Martensen, Gary Schultz, and Terry Yochum, all diplomates of the American Chiropractic Board of Radiology. The Festival 2008 program included 26 guest speakers and attracted over 240 chiropractors and hundreds of Life West's students.

Life West, established in 1976, is an accredited non-profit institution of higher learning. Currently over 400 students from across the United States and abroad are enrolled, and over 3,700 graduates of Life West are now providing chiropractic care worldwide. The college's Health Center, a public outpatient facility, staffed by approximately 150 senior interns who are guided by licensed doctors of chiropractic, provides affordable health care to more than 1,500 patients per week in the city of Hayward, California. The college and Health Center maintain a Web site at www.lifewest.edu.
