LIFE WEST RECEIVES GENEROUS DONATION FOR NEW DIGITAL STATE-OF-THE-ART RADIOLOGY LAB

Hayward, Calif., October 21, 2009 — At a luncheon held during Life Chiropractic College West's annual Homecoming Festival, 123Chiropractors.com presented Life West's President Dr. Gerard Clum with a donation of \$15,000 that will fund a new state-of-the-art digital radiology laboratory. The donation came as a result of the number of Life West doctors who registered their practices through the world's largest chiropractic on-line portal. 123Chiropractors.com promised to donate one month's service fee of \$30 for every registered Life West doctor. To date, 500 doctors from Life West have participated in the program.

Mr. Spencer Peller, partner and vice president of sales for 123Chiropractors.com, stated, "While 123Chiropractors.com is quickly becoming the leading Internet technology company throughout chiropractic, Life West has led the chiropractic education field for many years with its commitment to providing advanced state-of-the-art facilities for its students."

Dr. Clum stated, "We appreciate this generous donation from 123Chiropractors.com. They have conveyed a strong commitment to a long term relationship that will especially benefit our current students, recent graduates, alumni and the chiropractic profession as a whole."

Life West, established in 1976, is an accredited non-profit institution of higher learning. Currently over 400 students from across the United States and abroad are enrolled, and over 3,700 graduates of Life West are now providing chiropractic care worldwide. The college's Health Center, a public outpatient facility staffed by approximately 150 senior interns who are guided by licensed doctors of chiropractic, provides affordable health care to more than 1,500 patients per week in the city of Hayward, California. The college and Health Center maintain a Web site at www.lifewest.edu.
