LIFE WEST PLANS TO EXPAND CHIROPRACTIC SERVICES DURING NEXT GHANA MISSION TRIP

Hayward, Calif., December 23, 2009 — In an order to broaden and strengthen Life Chiropractic College West's efforts in Ghana, Dr. Gerard Clum, president of the college, met recently with representatives from a Ghanaian foundation, participating chiropractic interns, and faculty member Dr. Patricia Gonzalez, who is coordinating the college's mission trips to that African nation. Mr. Godwin Kofi Ahlijah from Meaningful Life International and Mr. Chris Stockhaus, director of missions from Cornerstone Fellowship, will assist in securing additional venues for providing chiropractic care as well as additional resources in the form of water purification, anti-malarial netting and high-protein nutritional support.

The college's next mission trip to Ghana is planned for summer 2010.

Dr. Clum stated, "We are taking every measure to create a safe and inviting environment where our students can help change the world one patient at a time by providing excellent chiropractic care to the people of Ghana."

Life West, established in 1976, is an accredited non-profit institution of higher learning. Currently over 400 students from across the United States and abroad are enrolled, and over 3,700 graduates of Life West are now providing chiropractic care worldwide. The college's Health Center, a public outpatient facility staffed by approximately 150 senior interns who are guided by licensed doctors of chiropractic, provides affordable health care to more than 1,500 patients per week in the city of Hayward, California. The college and Health Center maintain a Web site at www.lifewest.edu.
